TWO BOOKS BY
LESTER F. WARD

Applied Sociology

There is no question that Dr. Ward is the greatest authority on fundamental social science in the world today. Applied Sociology is regarded as his crowning achievement. Its purpose is to point out how the obstacles to human progress may be overcome by the application of the principles of human science.

Psychic Factors Of Civilization

This work is an original contribution to both psychology and sociology. It endeavors to show in a systematic way the workings of mind in social phenomena.

CARVER'S SOCIOLOGY AND SOCIAL PROGRESS

A compilation of the more significant observations made by the moralist, the metaphysician, the philosophic historian, and the man of science, upon the phenomena of society in general, upon the laws of social growth and decay, and upon the problems of social improvement.
